States government by means of a treaty what Nicaragua That there might be no question of their exclusive right under their grant to establish and ause the Transit, they entered into a convention with Mr. Yrrisari, the Nicaraguan Minister, on the 20th of June last, Yrrisari, the Nicaraguan Minister, on the 20th of June last, and amended. Nicaragua That there might be no question of their exclusive right under their grant to establish and by which their original grant was recognized and amended. The amendments provided—first, that the construction of the canal is dispensed with; second, that the company shall within two years build the railroad from Virgin Bay to San Juan del Sur, a distance of twelve miles and thirty ains; third, that they shall establish good lines of amboats on the river San Juan and the Lake of caragua, and good lines of steamboats on the Atlantic and Pacific oceans. This convention was sent to Nicara gua by Mr. Paraga on the 20th of June last, and on the 27th day of July it was formally confirmed and ratified by the government of Nicaragus, and was sent by Mr. Paraga to Mr. Trrisari, who delivered it to the company

Paraga to Mr. Trrisari, who delivered it to the company cas the 26th day of October last.

The object of the treaty which has just been made between our government and Nicaragua, and which was signed yesterday, was the protection of this route and company. The treaty itself does not name specifically any company, but provides for the protection of any existing company having a valid grant. The question of the validity of the grant is left to Nicaragua alone. She has decided it by the Convention of the 19th of June, confirmed and ratified by her on the 27th July. In addition to this, Mr. Yrrisari has this day notified the government of the United States in writing that the American Pacific Ship Canal Company has, and is the only company that has, such valid claim or grant. The question, therefore, as to what company the protection of the United States shall be extended is definitively settled, since Nica ragua has the right alone to determine that question, and has officially determined it.

shall be extended is definitively settled, since Nica ragua has the right alone to determine that question, and has officially determined it.

I am not at liberty to give more than a few items contained in the treaty just completed and signed. Yet I may say that the transit across the Isthmus to be established by the company is to be kept open and free from all interference from any quarter whatsoever, whether from natives or filibusters. To secure these ends the United States government is bound, whenever it may be necessary, to place its troops on the Isthmus, and to withdraw them when the invasion of the route or all danger of invasion shall cease. In this protection Nicaragua is also to co-operate. The sovereignty of Nicaragua over the entire river and lake is distinctly asserted. Thus it will be seen that the pretensions of Costa Rica and her grantees are ignored, and Costa Rica will be compelled to abandon her possession of the river or her posts on it. The treaty, however, reserves to Nicaragua a right to code to Costa Rica the privilege of navigating the river for the purpose of transporting her products and people.

Mr. Yrivart has full power, and is willing to make the same treaty with England and France that has just been completed with the United States. There is no doubt that through Lord Napier and Sir Gore Cuseley, who is here, a similar treaty will be made.

After the expulsion of Walker from Nicaragua, Costa Rica claimed the transit by right of conquest. A strange claim, when it is considered that Costa Rica fought with Nicaragua as her ally, and not against her as her enemy. She sent on two commissioners, Anderson and Wobster, to New York to dispose of the transit brivileges. They soon quarrelled. Vanderbilt recognized the right of Costa Rica to procure a grant for himself, and offered a large sum of money therefor. Charles Morgan sent Webster and his soon in-law, Harris, also to Costa Rica to procure a grant for himself, and offered a large sum of money therefor. Charles Morgan procured the g

Religious Intelligence.

CITY CHURCHES. Divine service will be held to-day in the Protestant Episcopal Mission church, Clinton Hall, Astor place—Rev. Robert G. Dickson, pastor.

A CHURCH SUIT IN VIRGINIA DECIDED IN FAVOR OF A CHURCH SUIT IN VIRGINIA DECIDED IN FAVOR OF

A CHURCH SUIT IN VIRGINIA DECIDED IN PAVOR OF THE NORTH.

We learn from Parkersburg, Virginia, that Judge Edmiston has at last decided the church suit pending between the Northern and Southern Methodists in that town. The suit was to recover the church and property owned by them jointly previous to the division of the church government into Northern and Southern bodies, and has been in court some ten or twelve years. Judge Edmiston, we understand, decides that the property belongs to the Northern portion of the church. The Southern division of the church. The Southern division of the church have had possession of the property since the division in 1844, and since then have added a parsonage. Considerable interest was felt in the result, which has not entirely abated, though the suit has been tied up in court for so long a period.

BAPTIZE THE WHOLE ARMY.

which has not entirely abated, though the suit has been tied up in court for so long a period.

BAPTIZE THE WHOLE ARMY.

The following anecdote was related by the Rev. Mr. Graham, of Bonn, at a meeting of the Hibernian Bible Society in Belfast:—He had to tell them that General Havelock, who is now so distinguished in India, although a Baptist, was a member of his (Mr. Graham's) missionary church at Bonn, and his wife and daughter were members of it for seven years. He could also narrate an anecdote regarding that great and good man, which he had heard from the lips of Lady Havelock. When General Havelock, as colonel of his regiment, was travelling through India, he always took with him a Bethel tent, in which he preached the gospel; and when Sunday came in India he usually hoisted the Bethel flag, and invited all men to come and hear the gospel; in fact, he even baptized some. He was reported for this at head-quarters, for acting in a non-military and disorderly manner; and the Commander-in-Chief, General Lord Gough, entertained the charge, but with the true spirit of a generous military man, he caused the state of Col. Havelock's regiment to be examined. He caused the reports of the moral state of the various regiments to be read for some time back, and he found that Col. Havelock's stood at the head of the list; there was less drunkenness, less flogging, less imprisonment in it than in any other. When that was done, the Commander-in-Chief said, "Go and tell Col. Havelock, with my compliments, to baptize the whole army." whole army.'

AMERICAN MAYORALTY CONVENTION. The Convention met at 187 Bowery on Saturday night-W. Barker, President, in the chair. The Convention est with closed doors; but our reporter learned from some of the members that there was a lengthy and heated discussion upon the question of the Mayoralty; that there
was considerable recrimination among members, and
complaint that their candidate, Mr. Coeley, had not been
properly supported by those who ought to have done so.
Mr. J. W. Rennels offered the following resolutions,
which were ultimately adopted:

Resolved, That in accordance with the patriotic action
first inaugurated by the American party of the city of New
York, we are still prepared in this municipal election to
co-operate with our fellow citizens of all parties in the
election of an honest man to the chief magistracy of the
city.

city.

Resolved, That our fellow citizens, in mass meeting assembled, and without distinction of party, having presented the name of Daniel F. Tieman, for the mayoralty, we deem all further official action in the premises unnecessary, and that the Mayoralty Convention do now adjourn And the meeting accordingly adjourned.

Supreme Court—Special Term.

Nov. 21.—The People are rel. Robert H. Ellis ss. Asariah.
C. Flagg.—In this case a motion was made for a mandamus to compel the Comptroller to draw his warrant in favor of the relater for \$167 13, for stationery furnished to the said Commissioners in April and May last. It appeared that a resolution had been passed by the Super. visors directing the Comptroller to draw his warrant for the amount. An affidavit on the part of the Comptroller was read, showing that he had made contracts with others for supplying all the officers of the city and county with stationery, which contracts were still in force; that the relator's bill had not been allowed or audited by the Auditor, as required by the act of 1857, and that there was no specific appropriation in the Treasury to pay for supplying county officers with stationery. The motion was denied, with \$10 costs. Morrell, Willard & Howe for relators; A. R. Lawrence, Jr., Assistant Corporation Counsel, for respondent.

Coal in Kansas.

[From the Topeka Tribane.]

We were shown the other day a fine specimen of coal taken from the claim of Mr. J. H. Young, one and a half miles west of town. The vein is about two feet deep where it crops out, and has every indication of enlarging as it is worked.

There is also an abundant supply on the claim of Mr. Dow, two miles south of town, while on the Wakarusa, twelve miles south, there is an inexhaustible supply of coal of an excellent quality.

Several contracts have already been made for winter's supply of coal at twenty five cents per bushel, and we are confident that with the employment of capital and the modern facilities for mining, which it is now demonstrated the supply will warrant, it will be afforded at a much less rate.

The Worth Monument The joint Committee of the Common Conneil on the Worth Monument met in the City Library at three o'clock P. M. on Saturday, Alderman Harris in the chair.

It was decided that the National Guard of Brooklyn, under Captain Sprague, who accompanied the remains of Major General Worth to Greenwood Cemetery when deposited there, should accompany the committee to the Ceme tery and be the Guard of Honor to conduct the corpse to New York.

A letter was read from Mrs. Worth requesting that Bishop Potter might be invited to act as the officiating clergyman, and that Dr. Stevens, of Philadelphia, Dr. Van Rensselaer, of Burlington, N. J., Dr. Charles D. Copeer, of Philadelphia, General Gansevoort, Mr. Corning, Mr. Olcutt, General Talcott, Mr. James Kidd, of this city, Major Thornton, Major Babbitt, at Baltimore, and Colonel Montgomery, of Bristol, N. J., be invited to be present. She informed the committee that General Worth's borae is on the farm of Colonel Rohlen, near Philadelphia, and the committee have made arrangements for obtaining it. The following members of General Worth's family will be at the St. Nicholas and proceed from there in carriages:—Mrs. Worth, Mrs. Sprague and 3 children, Mrs. and Mrs. J. F. Racon, Mrs. Sprague and 3 children, Mr. and Mrs. J. F. Racon, Mrs. Branse Bright & 2 sons, Cadet Henry Worth.
Mr. and Mrs. J. AmesKidd,
Also eight members of G. A. Worth's family and twenty members of Mr. Edwards' family.
The order of exercises at the monument will be as follows:—First, the deposit of the box of relies, papers, &c. second, the oration, of which 5,000 copies are to be printed; third, the religious exercises; fourth, the Masonic exercises; and lastly, the firing of cannon and the like. It was decided that the pail-bearers should be military men, as near to the rank of Major General Worth as possible.
Mr. Downing, Superintendent of street cleaning, inquired

tary men, as near to the rank of Major Geheral worth as possible.

Mr. Downing, Superintendent of street cleaning, inquired the line of march of the procession, and said he would have the streets along the line as clean as possible.

The Cincinnati Society, of which the General was a member, will attend the procession in a body.

The committee then selected the following persons as pall-bearers:—Major General Winfield Scott, Gen. Richard Varick Dewitt, of Albany, President of the Cincinnati Society; Colonel Abraham Van Buren, Paymaster General of the army in Mexico, and General Ward B. Burnett. The remainder of the sixteen pall-bearers will be selected at the next meeting.

remainder of the sixteen pall-bearers will be selected a the next meeting.

A great many letters were received. The military let A great many reters were received. The mintary let ters were referred to Gen. Sandford, the civic ones were decided upon by the committee. The order of the procession was considerably discussed, and when decided upon will be duly advertised. The committee then adjourned till Monday, at 11 A. M.

Decisions in Admiralty.

Decisions in Admiralty.

UNITED STATES DISTRICT COURT.

Before Hon. Judge Betts.

HEN-PIRADING—STATE LAW—REFERENCE.

William W. Tupper et al. vs. The Steamship St. Law-rence.—This case came up on exceptions to a commissioner's report. Held by the Court—That it becomes necessary to examine the pleadings to ascertain what was the subject matter of the reference, the Court not having acted judicially in the proceeding. That the libel contains no allegation that the supplies, to recover the value of which the action is brought, were furnished on the credit of the ship, nor that there was any necessity at the time of procuring the supplies for a credit upon the vessel, nor whether she was a foreign or a domestic vessel. That no cause of action is stated therefore which comes within the cognizance of the Court. (Pratt vs. Reed, 19 How. R. 361, 362.) That no regard can be paid, therefore, to any proceedings between the parties subsequent to the issue made by the pleadings. The only step which could be legitimately taken was to obtain the judgment of the Court upon the point of jurisdiction, or to ask its aid to an amendment or reform of the pleadings. All proceedings following the replication must be set aside with costs.

SEAMN'S WAGES—VESCH. FORFEITED—PETITION—SERPLES.

amendment or reform of the pleadings. All proceedings following the replication must be set aside with costs.

SEAMEN'S WAGES-VESSEL VORFETTED—PETITION—SURPLUS.

Louis Ciacheri et al. vs. the Bark St. Michael.—This was a libel for seamen's wages claimed to have been earned on a voyage from Genoa to this port. The vessel on her arrival here was seized as forfeited under the revenue laws, condemned and sold. This claim was not brought before the Court at the time of the condemnation, but the libelants, using their libel by way of petition seek to have their claim satisfied out of the proceeds by order of the Court through its discretionary power over remnants and the surplus. Held by the Court—That the application cannot prevail in this form. It must be assumed that the vessel has been rightfully condemned, and there is no proof or even allegation that the interest and rights of the crew were not involved in the forfeiture. There is nothing, therefore, to warrant the presumption that the petitioners, as part of the ship's company, were exempt from all guilty complicity in the offence. Petition denied with leave to renew it.

Petromaty—Present—Resent—Round voyage.

James D. Fish et al. vs. the Bark George Thomas and her Freight.—This was a libel upon bottomry bond. The vessel saled from Hossen, bound thence to Havana, there to discharge her entward cargo, and thence to a port in the United States. On her outward voyage she was dismasted, and put into Key West for repairs, to cover which this bond was given by the master. The vessel on being sold did not bring enough to cover it, and the libellant claims to recover the halance out of the freight moneys received on the voyage round from Havana to the United States, while the claimant insisted that Havana was to be deemed the terminus of the vayage for which the master had power to bind the cargo and freight. Held by the Court—That the voyage was a round one from Boston back to the United States, and the vessel' was employed carring freight the entire circuit, and th

Brandreth's Pills Purify the Blood .- To Cure Brandreth 's Filis Furity the Blood.—To Cure us when we are sick, the medicine we use must purify our blood. Consumption would never take away our dearest ones if purgation with Brandreth's pills had been sufficiently repeated during the attack of influenza, cokia and cought; because the tubercies are a deposit from the blood, which Brandreth's pills surely remove. Cancer, canker and all eruptions of the skin, are from impurities of the blood, which would be entirely prevented if Brandreth's pills were used in full, purifying doses, when our health is first broken by colds, repumation, billious affections, deep termation of the causes. rheumatism, bilious affections, dysentery, or other of Headaches and fevers of all kinds—even bowel affe-pains in different parts of the body—are all the conse-of matters retained in the blood beyond the time nait

have just received on consignment a large and superior of men's clothing of the latest styles which they will sell great reduction from wholesale prices. They have marked down their large stock of boys' clothing to corpondingly low figures. Now is the time to buy clothing is really classp.

FINANCIAL AND COMMERCIAL. MONEY MARKET.

SATURDAY, Nov. 21-6 P. M. The stock market appears to have recovered its full tone and vigor. At the first board this morning the tendency of prices was upward, with more than the activity of the past day or two. Tennessee State 6's advanced 1 per cent; Missouri 6's, 4; Illinois Central bonds, 14; Chicago and Rock Island, 14; Delaware and Hudson, 4; Cumberland, 1; New York Central Railroad, 15; Erie, 5; Harlem, 4; Reading, 3½; Hudson River Railroad, ½; Michigan Southern, old, 1½; do. preferred, 3; Illinois Central Railroad, ½; Cleveland, Columbus and Cincinnati, 1; Cleveland and Toledo, 1¼; Milwaukie and Mississippi, 2; La Crosse and Milwaukie, J. Virginia 6's declined 1 per cent; Michigan Central, 8 per cent, new loan, 8; Cleveland and Pittsburg, 1. The movement in New York Central was quite active this morning. and was well sustained to the close. There were sales at 81 per cent, cash. In Reading the advance was of an important character, with very large transactions. In all the Western railroad stocks there was considerable activity, with an improvement in market value. In the face of such an abundance of money, with no way of giving it employment but by loaning on call, with stock securities as collateral, it could not well be otherwise than that an inflation should follow. There is a strong party engaged in the upward movement, and as they have the command of large resources, beyond their immediate means, it would not surprise us much to see them carry prices up to the points they fixed some weeks since. We should not be much surprised at anything that could occur in Wall street or at the Stock Exchange, and therefore look on calmly and see daily the most extraordinary operations in the way of speculation among the bulls and bears of that locality. Railroad stocks, which a few weeks since were in so much discredit, find purchasers now at prices ten, twenty and thirty per cent above those then current, and it would not appear at all strange to see them, within the next thirty days,

run up five and ten per cent higher.

At the second board the market was altogether better, and closed firm at our quotations. Michigan Central 8's advanced } per cent; Tennessee 6's, 2; Illinois Central bonds, 1; Reading, 1; Michigan South ern, old, 1; do. preferred, 1; Chicago and Rock Island, 1; New Jersey Railroad, 1. There was no stock of consequence pressing for sale, and the demand was active. Most of the transactions this afternoon were for cash.

The Assistant Treasurer reports to-day as follows:--

pool carries out \$380,946 in specie.

We understand that the work of liquidation of the Bowery Bank is going on favorably, under the direction of Mr. J. A. Stewart, the receiver, and the assets are turning out rather better than was at first anticipated. He expects to be able to declare a dividend upon the debts of the bank within the next twenty days, and that this dividend will not be less

than twenty-five per cent.

The amount received for tolls on the canals of the State for the second week of November

Was.....in 1856...... November, and to the 15th of November, in the years 1851 to 1857, inclusive, is:-

Second Week Nov.\$85,036 2,593,387 2,611,499 .116,025 .119,969 3,171,838

The New Orleans Bulletin, of the 9th, says exchange on all points took a strong jump to-day. In sterling the business reached £40,000, of which a round amount of bill of lading drafts at 96, and clear at a range of 95 a 100, including £10,000 A 1 at the outside figure. The suddenness of the rise made the market quite irregular, so that while strictly first class names were sold early at 974, they subsequently brought par. Sight and short sight on New York was in active request, especially the former, a round amount of which was sold at 2 per cent discount. Subsequently parties refused to draw, and the banks having hardly any supply were compelled to put their rate to par. A leading private drawer was offered 1 per cent. Early in the morning a sale of \$25,000 three days sight was made at 84 per cent discount. Afterward there were sales of \$30,000 one day sight at 2 a 24 per cent discount. Some fifteen days date fixed was passed at 4. The market closed with an upward tendency. Francs have taken a wide range, say from 6 10 a 5 75, but only small sales at the outside figure, and large transactions at 6 10

The January interest on the Virginia State debt has already been provided for by the Board of Public Works, and the amount to be paid in London on the sterling issue of bonds and in New York on the coupon dollar bonds will be paid over to the proper accounting officer. This gratifying fact is stated on the authority of a private note from a member of the Board of Public Works to Messrs. Peters, Campbell & Co., of Wall street.

The gross earnings of the Wilmington and Weldon (N. C.) Railroad for the year ending September 30, 1857, were \$494,508 56, and the cost of "operating proper" \$224,502 23, leaving \$270,006 42 as net earnings. During the year \$65,173 42 was expended in filling up trestle work and in the purchase of additional engines and machinery.

The affairs of Texas are represented by the Governor in his message to be in a prosperous condition with a cash surplus of \$700,000 in the treasury. He therefore recommends a reduction of taxes, and that the State should, out of the surplus of the last Texas debt fund, returned to Texas by the United States, pay to old creditors of Texas the difference between the amount which they received under the act of Congress, and that at which their debts were rated and classified at the Texas treasury. The principal of the school fund has increased to \$2,200, 000, and under an extension of the existing provisions in regard to land sales to all the lands of the State, is expected to increase hereafter at the rate of one hundred thousand dollars a year. The number of scholars in the public schools was, in 1856, 72,826; and in 1857, about 87,000. He urges additional aid to internal improvement companies, and proposes the passage of an act to take the sense of the voters on the expediency of calling a Convention to amend the State constitution.

The receipts of the Central Railroad of New Jersey for the six months ending September 30, were as follows:-

.\$370,132 28 Increase..... \$96,012 36 The expenses for the same six months were \$178,-848 57, thus leaving as net earnings \$191,286 81, or an increase of 80 per cent over same time last year, when the net earnings were \$147,676 08. LIABILITIES.
